- Air Filtration

## **Heating/Cooling - (Clean and Check Service)**

American Heating and Cooling takes great pride in our thorough 21-point clean and check service for heating and ac units:

Our highly trained HVAC experts will perform a 20-point clean and check of your heating or cooling system. Upon completion, we will provide you with a report and make necessary recommendations to improve the quality and comfort in your home and ensure your system is operating at optimum efficiency and performance.

## **Emergency 24 HR Heating & AC Service**

More often than not, your Heating or Cooling system will fail at the most inconvenient times: on the hottest summer days, after hours or on a weekend or holiday. Our certified trained HVAC specialists carry a large variety of parts required to repair your cooling or heating system right on their trucks. Rest assured that, at American Heating and Cooling, we will do everything possible to get your heating or cooling system up and running 24/7.

## **New System Replacement**

American Heating and Cooling HVAC Services provide furnace, boiler, heat pump and central air/ac replacements and other HVAC services in the Northern Utah area. Our specialists will be able to address your specific comfort needs and design a replacement system that will keep you comfortable year-round in your Utah home.

## Payments Types Accepted

Financing is available at 0% for up to 18 months on OAC and we accept major credit cards:(Visa, Master Card, Discover), checks and cash. Estimates are always free.

## Full service agreements

American Heating and Cooling offers several service agreements to suit your specific needs at a modest price.

## Indoor Air Quality

American Heating and Cooling offers a variety of HVAC air quality products such as HEPA air filtration systems, humidifiers, ultra violet air sanitizers and touch programmable thermostats.

## Why should I purchase a service agreement?

Proper care of your heating & cooling equipment can save you real dollars on your utility bills as well as in your pocket. Regular maintenance to maintain peak performance and reliability is a must. Some air conditioning & heating problems can double operating costs without reducing comfort, ultimately resulting in untimely and costly repairs. An HVAC service agreement with American Heating and Cooling will give you the peace of mind that your system is operating at optimum efficiency and performance season after season.

## How Service Fees work

We only charge for the service call and this will include diagnostic of the equipment and a cost to repair it will be presented. If you decide to repair the equipment, the call out service fee will be waved. If you decide to reject the repair estimate you will only owe the call out charge. We have the lowest service fees in the area.
